

## May Newsletter

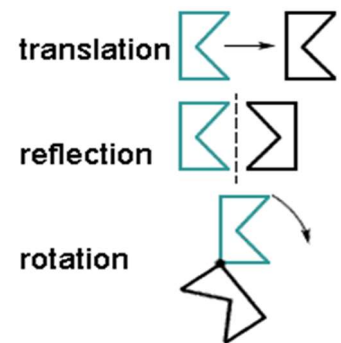

With April behind us, we spring ahead to May. It will be a very busy month, so check Edmodo daily to stay up to date. We have already started to book swimming, track & field as well as trips highlighting career options.

In Literacy, we are reading and writing from different POVs. We'll wrap up the unit with some lively debates as well as looking at advertising techniques with infomercials

The grade 7s, are learning about heat in Science. They will build a thermos to demonstrate their knowledge of thermal transfer.

In Math, we'll be working with the coordinate grid to place images after a transformation.

GRADUATION JUNE 24<sup>TH</sup> 7PM (W. ROSS)
