END OF YEAR REMINDERS:

With June now upon us, we ask that you consider a few things during the last month of school:

- Remind students of appropriate clothing during warmer days
- Update your personal calendars to include the many important upcoming dates
- Remind students to begin bringing home any personal belongings left at school during the year

EDMODO – STILL JUST A CLICK AWAY

We continue to remind our students to check-in with our classroom Edmodo app to keep up to date with all things Grade 7 and 8. Students are encouraged to focus primarily on the calendar (within the app) to plan and prepare for upcoming tests, assignments, and field trips. Parents might also benefit from taking a peek in order to strengthen the home and school bond.

Over the summer?

Keeping up with the curriculum over the summer might be a wise thing to do for many of our students. Practicing their academic skills is just a click away at <https://ca.ixl.com/signin/granderie>. All students have their own login and passwords.

On this site, students can practice and refine their skills and track their individual progress. Modules are broken down by grade and by curriculum focus. Mathematics, Reading and Writing skills are all offered in grade appropriate modules.

"Everything you don't know is something you can learn."
