

Revitalization Committee Report:

We Met on Dec 4 to discuss the goals and visions of this project.

Our mission is to provide Ecole Dufferin and the community with a carefully planned, high quality outdoor space which fosters play, sport and learning. The Dufferin Parent Council Revitalization Committee envisions a beautiful, multidimensional playground that is safe and secure, welcoming, and environmentally sound.

Planning and implementation of this superb new area will be a long-term collaborative effort between the staff, students and families of Ecole Dufferin, as well as community partners.

We would like to form a "DUFFERIN FOUNDATION" which will need to be voted on by DPC and formed accordingly. This will allow us to offer charitable receipts to people or companies who contribute.

Our Plan...

What it is:

- it is for the future
- it is to enhance our students experience
- it will enhance the heritage look and feel of the school
- it will have a long-term plan in place so there is no need for wondering how we will be able to maintain what we have created.

What it is not:

- it is not a quick fix.
- it is not just our money and time, it will include community and corporate involvement as well as resourcing available grants . This includes surveys to find out what the children, teachers and staff, parents and the community want and need.
