

**Go Thunderbirds!**

Pauline Johnson is a school that models 21<sup>st</sup> Century learning. PJ is completely wireless with extensive access to school computer labs, laptops, net books, and free wireless that can be accessed from your personal computers. Yet we have the spirit of a school that is reminiscent of the 1970's! It is cool to care about your school at PJ.

I am also very proud of the academic success our students have achieved. Our awards related to environmental stewardship are second to none. It is fitting that our school expands our Specialist High Skills Major offerings to include the new E3 program focusing on the environment. We will be the only school in Grand Erie that offers the E3 program. Our Media Tech SHSM program is one of the best in the province, featuring co-ops at Rogers and the Brant News. Their Christmas assembly presentation and school newsletters are "PJ- famous"!

Pauline Johnson also offers a wide range of co-curricular programs. We offer every sport with many teams and athletes performing and medaling at the OFSAA level. For those interested in community service, leadership, technology or adventure, there are many clubs that will meet your needs.

Again, what makes PJ great is the teamwork among our amazing students, staff and community, making PJ a place we can call home. I am looking forward to many more successes this coming school year.

As always, if you have any questions or concerns, feel free to contact me.
