

# IGNITE Grant 2025-26

**Do you know a student who has mastered the utilization of SEA technology to assist with their technology skills and successful access to curriculum ?**

In order to amplify independence, remove systemic barriers, and to support equitable access to post-secondary educational and employment pathways, two \$1000 grants will be awarded to graduating students who have previously utilized SEA assistive technology. Students applying must require continued access to assistive technology tools to support a successful transition to apprenticeship, college, university, community settings, or employment.

**Applications are due May 25<sup>th</sup>, 2026 | 4:00pm**

Application questions can be completed in written form, voice, video or using augmentative and alternative communication.
