

# PARIS CENTRAL ELEMENTARY SCHOOL PLAYGROUND REVITALIZATION PROJECT

follow us on Facebook at: <https://www.facebook.com/ParisCentralPlayground/>

## BACKGROUND

The Paris Central School staff, parents, students and community have been working hard and fundraising over the past three years to improve our playground. In the summer of 2018, the school board repaved our asphalt area. Our Playground Committee was able to get some of the asphalt replaced with a large grassy area, sand play area and seven new trees. Two new Buddy Benches will be installed in the spring of 2019.

## OUR VISION

We would love to have more armour stones to sit on and an outdoor classroom to take our learning outside. Our hope is to see a colourful yard blooming with new trees and flower gardens. In addition, our soccer field and baseball diamond are in need of upgrading.

## BENEFITS OF REVITALIZATION

- increased school pride
- new outdoor classroom
- healthier natural spaces
- safe outdoor play spaces
- more engaging areas to play
- improved sports fields
- stronger sense of community
- increased parent involvement
