

School Messenger – COVID-19

Good Morning Langton Families,

This is Principal Deb Opersko. I apologize for the early call, but I'm reaching out today with an important message.

Late last night, the Haldimand-Norfolk Health Unit confirmed a case of COVID-19 in our school community. Understandably, for privacy reasons, the identity of this individual will not be disclosed. This individual has been directed by the health unit to [self-isolate](#), along with any family members who reside in the same household.

The Haldimand-Norfolk Health Unit is connecting with students, staff and families who have been deemed close contacts to this COVID-19 case. These individuals are also being directed by the health unit to self-isolate. If your family has not been contacted by the health unit, your child has not been identified as a close contact at this time. If further close contacts are identified, the Haldimand-Norfolk Health Unit will let us know as soon as possible.

Langton School will be open today, and we look forward to seeing those who have not been directed to self-isolate. Grand Erie custodians have completed their disinfecting of our school, as they do each and every night. Moving forward, Langton staff will work with students and families who are self-isolating to ensure learning continues.

A friendly reminder that all Grand Erie students and staff are required to monitor their health daily. If symptoms consistent with COVID-19 develop, please contact your primary health care provider. Anyone concerned that they may have developed or been exposed to COVID-19 is encouraged to get tested.

If you have any questions, please take a look at the [COVID-19 Frequently Asked Questions](#) on the board's at www.granderie.ca or you can reach out to us here at the school.

Thank you.
